GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the effective tax rate and rollback tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest.

School districts do not use this form, but instead use Comptroller Form 50-859 *Sample Tax Rate Calculation Worksheet for School Districts*.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Sample Water District Rollback Tax Rate Worksheet*.

The Comptroller's office provides this sample worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: Effective Tax Rate (No New Taxes)

The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the effective tax rate should decrease.

The effective tax rate for a county is the sum of the effective tax rates calculated for each type of tax the county levies.

8.	2017 taxable value lost because property first qualified for an exemption in 2018. Note that lowering the amount or percentage of an existing exemption does not create a new exemption or reduce taxable value. If the taxing unit increased an original exemption, use the difference between the original exempted amount and the increased exempted amount. Do not include value lost due to freeport or goods-in-transit exemptions.

17.	A. 2018 taxable value of properties under protest or not included on certified appraisal roll. The list shows the appraisal district's value and the taxpayer's claimed value, if any or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value. B. 2018 value of properties not under protest or included on certified appraisal roll. The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about, but are not included in the appraisal roll certification. These properties also are not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. New personal property in a new improvement must have been brought into the taxing unit after Jan. 1, 2017, and be located in a new improvement. SECTION 2: Rollback Tax Rate

The rollback tax rate is split into two separate rates:

1. Maintenance and Operations (M&O): The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus eight percent. This rate accounts for such things as salaries, utilities and day-to-day operations.

2. Debt: The debt tax rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The rollback tax rate for a county is the sum of the rollback tax rates calculated for each type of tax the county levies. In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a taxing unit's debt service will cause the effective tax rate to be higher than the rollback tax rate.

Notice of Effective Tax Rate

2018
(insert year) Property Tax Rates in Cisco College
(insert taxing unit name)

This notice concerns 2018
(insert year) property tax rates for Cisco College
(insert taxing unit name)

It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:

Last year's operating taxes \$ 910,516.26

Last year's debt taxes \$

Last year's total taxes \$ 910,516.26

Last year's tax base \$ 455,258,130.00

Last year's total tax rate \$.200000 /\$100

This year's effective tax rate:

Last year's adjusted taxes *(after subtracting taxes on lost property)* \$ 910,516.26

÷ This year's adjusted tax base *(after subtracting value of new property)* ... \$ 565,973,320.00

= This year's effective tax rate
(Maximum rate unless taxing unit publishes notices and holds hearings.) \$.160886 /\$100

In the first year a hospital district collects the additional sales tax to reduce property taxes, it must insert the following lines unless its first adjustment was made last year:

- Sales tax adjustment rate \$ /\$100

= Effective tax rate \$ /\$100

This year's rollback tax rate:

Last year's adjusted operating taxes
(after subtracting taxes on lost property and adjusting for any transferred function, tax increment financing, state criminal justice mandate and/or enhanced indigent health care expenditures) \$ 910,516.26

÷ This year's adjusted tax base \$ 565,973,320.00

= This year's effective operating rate \$.160886 /\$100

x 1.08 = this year's maximum operating rate \$.173756 /\$100

+ This year's debt rate \$.000000 /\$100

= This year's total rollback rate \$.173756 /\$100

A hospital district that collects the additional sales tax to reduce property taxes, including one that collects the tax for the first time this year, must insert the following lines:

- Sales tax adjustment rate \$ /\$100

= Rollback tax rate \$ /\$100

For a taxing unit with additional rollback rate for pollution control, insert the following lines:

+ Additional rollback rate for pollution control \$ /\$100

= Rollback tax rate. \$ /\$100
