July 14, 2026

Updated information from USDA:

As of this morning there are 21 active cases and 14 inactive cases of screwworm in Texas. There are no reported cases in Eastland County. Still 0 wild flies caught and 0 cases in wildlife.

It appears that humans moving livestock is what is moving the screwworm. The last reported case is Crockett County (Ozona) 230 miles from us on July 10.

Currently they are holding it to 7 counties.

To date, it has been found in 19 cattle, 10 sheep, 4 goats, and 2 pets.

Please continue to monitor your livestock and pets.

David Hullum
Eastland County Judge
